### Materials required for examination

---

### Mathematical Formulae (Pink)

### Items included with question papers

Nil

**Candidates may use any calculator allowed by the regulations of the Joint Council for Qualifications. Calculators must not have the facility for symbolic algebra manipulation or symbolic differentiation/integration, or have retrievable mathematical formulae stored in them.**

## Instructions to Candidates

In the boxes above, write your centre number, candidate number, your surname, initials and signature. Check that you have the correct question paper.

Answer ALL the questions.

You must write your answer for each question in the space following the question.

When a calculator is used, the answer should be given to an appropriate degree of accuracy.

## Information for Candidates

A booklet ‘Mathematical Formulae and Statistical Tables’ is provided.

Full marks may be obtained for answers to ALL questions.

The marks for individual questions and the parts of questions are shown in round brackets: e.g. (2).

There are 9 questions in this question paper. The total mark for this paper is 75.

There are 32 pages in this question paper. Any blank pages are indicated.

## Advice to Candidates

You must ensure that your answers to parts of questions are clearly labelled.

You should show sufficient working to make your methods clear to the Examiner.

Answers without working may not gain full credit.

PEARSON

Leave  
blank

1. Find the first 3 terms, in ascending powers of  $x$ , of the binomial expansion of

$$\left(2 - \frac{x}{4}\right)^{10}$$

giving each term in its simplest form.

(4)

Q1

**(Total 4 marks)**

Leave  
blank

2. A circle  $C$  with centre at the point  $(2, -1)$  passes through the point  $A$  at  $(4, -5)$ .

(a) Find an equation for the circle  $C$ .

(3)

(b) Find an equation of the tangent to the circle  $C$  at the point  $A$ , giving your answer in the form  $ax + by + c = 0$ , where  $a$ ,  $b$  and  $c$  are integers.

(4)

Q2

**(Total 7 marks)**

Leave  
blank

Given that when  $f(x)$  is divided by  $(x + 1)$  the remainder is 45,

(a) show that  $B - A = 48$

(2)

Given also that  $(2x + 1)$  is a factor of  $f(x)$ ,

(b) find the value of  $A$  and the value of  $B$ .

(4)

(c) Factorise  $f(x)$  fully.

(3)

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

### Q3

**(Total 9 marks)**

Leave  
blank

A diagram of a semicircle with center  $O$  and radius  $16\text{ cm}$ . A horizontal line segment  $DC$  is drawn parallel to the diameter  $AB$ , with  $D$  and  $C$  on the arc. The distance between  $D$  and  $C$  is  $7\text{ cm}$ . Dashed lines connect  $O$  to  $D$  and  $O$  to  $C$ . The angle  $\angle DOC$  is marked with two arcs.

### Figure 1

Figure 1 shows a sketch of a design for a scraper blade. The blade  $AOBCDA$  consists of an isosceles triangle  $COD$  joined along its equal sides to sectors  $OBC$  and  $ODA$  of a circle with centre  $O$  and radius 8 cm. Angles  $AOD$  and  $BOC$  are equal.  $AOB$  is a straight line and is parallel to the line  $DC$ .  $DC$  has length 7 cm.

- (a) Show that the angle  $COD$  is 0.906 radians, correct to 3 significant figures. (2)
- (b) Find the perimeter of  $AOBCDA$ , giving your answer to 3 significant figures. (3)
- (c) Find the area of  $AOBCDA$ , giving your answer to 3 significant figures. (3)

Leave  
blank

[illegible]

**Q4**

**(Total 8 marks)**

Leave  
blank

- Find

- (a) the common ratio,

(4)

- (b) the first term.

(2)

- (ii) A different geometric series has a first term of 42 and a common ratio of  $\frac{6}{7}$ .

Find the smallest value of  $n$  for which the sum of the first  $n$  terms of the series exceeds 290

(4)

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Leave  
blank

[illegible]

**Q6**

**(Total 9 marks)**

Leave  
blank

- (3)

- $$\log_2(11y - 3) - \log_2 3 - 2 \log_2 y = 1, \quad y > \frac{3}{11}$$

(6)

[illegible]

Leave  
blank

**Q7**

**(Total 9 marks)**

8. (i) Solve, for  $0 \leq \theta < \pi$ , the equation

$$\sin 3\theta - \sqrt{3} \cos 3\theta = 0$$

giving your answers in terms of  $\pi$ .

(3)

(ii) Given that

$$4\sin^2 x + \cos x = 4 - k, \quad 0 \leq k \leq 3$$

(a) find  $\cos x$  in terms of  $k$ .

(3)

(b) When  $k = 3$ , find the values of  $x$  in the range  $0 \leq x < 360^\circ$

(3)

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
