General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

1(b)	<p>Answers may include:</p> <p>The fireworks activities should be shown as Continued Operations ✓ in the accounts next year. All revenues and expenses relating to these should be shown separately. ✓</p> <p>For usefulness This will benefit users of accounts because they can see that profits or losses from the Discontinued Operations will not be expected to be realised in the future✓✓ This allows reader to predict more accurately future expected performance. ✓ This may help future potential investors / shareholders / creditors ✓ etc with decision making. Eg buy more shares/allow credit✓ Should be beneficial if required to be shown ✓ by FRS3 / IFRS 5 ✓</p> <p>Against usefulness Adds more figures and details to the accounts ✓ so makes them more difficult to understand. ✓ especially for those with little accounting knowledge. ✓ Takes time to add extra detail ✓ and therefore this means extra expense ✓</p> <p>Maximum for arguing only one side 8 x ✓ = 4 marks</p> <p>Evaluation Should conclude that it is beneficial to show Discontinued Activities. ✓✓</p>	(12)
